1	Save the African Children!!	Miranda Kerr	Save the children because they cannot save themselves.....  Across the globe, 22,000 children die each day from preventable causes. In Africa, nearly half of those deaths are from diarrheal diseases. Population forecasts suggest that an additional 632 million people will need to gain access to improved sources to meet the Millennium Development Goal drinking water target. Accelerated progress is needed in sub-Saharan Africa, home to 37% of those without improved drinking water sources.	7	1000
2	Clean water for everyone!	Bruce Lee	President Trump calls reports of his alleged compromising ties to Russian businesses and government officials, "FAKE NEWS - A TOTAL POLITICAL WITCH HUNT." He can prove it by releasing his tax returns. Who does our president owe money to? Can they use his debt to manipulate our Commander-in-Chief? Is he receiving income from foreign sources to his businesses from which he has yet to divest? The answers are easy to discover if he releases his tax returns.	2	50000
